Note to all Health Care Providers:

The mobility program is designed to help seniors maintain their independent living status within the community. Wheelchairs, walkers, canes and crutches are available for a **maximum of three months** on the recommendation of a medical professional.

It is **imperative** that clients call at least **24 hours** in advance (if possible) to arrange for pick up of equipment. Due to the nature of my job, I am frequently out of the office and when I am, appropriate arrangements need to be made to ensure the equipment and paperwork is available and ready. Although the ladies here in our office will try to assist as best they can, not all are familiar with the mobility program and the client may be asked to come back at a later time. My office hours are 8:00 a.m. to 4:00 p.m.

I would appreciate if you could **stress** to your patients, the importance of calling ahead to arrange for pick up of equipment, as this makes it easier for all.

Thank you very much for your involvement in the program.

Sincerely,

Carrie Bilawchuk
